15year WARRANTY

MONOTEC 370 Series

SETTING THE INDUSTRY STANDARD

Developed as an "install and forget" shadecloth, Monotec 370 Series shadecloth is the perfect solution for shade sails and structures. Uniquely made using only 100% round monofilament HDPE yarns, Monotec 370 Series provides consistent protection to people and property in the harsh Australian climate.

Monotec 370 Series shadecloth is resistant to UV rays and is supported by the industry's only 15 year warranty. The sturdy fabric construction of round monofilament yarns will not stretch over time assuring colour vibrancy and the integrity of your structure's stability for many years to come.

EXCELLENCE IN DESIGN

Monotec 370 Series is:

~ The only shadecloth manufactured in Australia

~ The only shadecloth manufactured using 100% round monofilament HDPE yarn

~ The only shadecloth that will retain its permanent shape and design

~ *The strongest shadecloth available today*

DESIGNER COLLECTION

MONOTEC 370 Series FR™
Fire Retardant • Engineered To Outlast

FR COLOURS

10 YEAR WARRANTY

FEATURES

100% ROUND MONOFILAMENT HDPE YARN
With a higher strength to weight ratio, round monofilament yarn is stronger than tape yarn

NO TAPE YARN USED
Flat and oval tape yarns are weaker and continue to stretch, causing sails to sag after installation

NO RE-TENSIONING AFTER INSTALLATION
There is no need for installers to return after installation to re-tighten sails

MARKET LEADER FOR STRENGTH
Exceeds Australian Standards requirements for bursting and tensile strength

STRONG WIND RESISTANCE
Superior durability and performance especially in excessively high wind conditions

MAINTENANCE FREE
Due to their smooth surface, round monofilament yarns are more resistant to dirt and debris build-up

VANDAL RESISTANT
The strength of round monofilament yarn, combined with the close lock-stitch construction makes it difficult to penetrate the fabric with damaging objects

INDUSTRY RECOGNISED
Utilised in multiple award winning projects in Australia and around the world

3.25MT AND 6.5MT WIDTHS
Wide widths help reduce unsightly seams, weak points and fabrication costs

14 VIBRANT COLOUR OPTIONS
Additional custom colours available by request

FIRE RETARDANT CERTIFIED
Engineered to pass the industry's most stringent fire retardant tests both in Australia and around the world

100% AUSTRALIAN MADE
The only Australian made shadecloth available today

15 YEAR WARRANTY*
The industry's only 15 year manufacturer's warranty
*NB: 10 year warranty on FR Series
